* At Korea University, every course has limited openings not only for exchange/visiting students but also for regular KU students. While the number of vacancies for regular KU students depends on their enrolled year (e.g. sophomore), exchange/visiting students are counted separately.

If the number of exchange/visiting students who have selected a specific course (e.g. WORLD ECONOMY AND BUSINESS) during the ‘Preferred Course Listing’ period is equal to or below the number of quota available to exchange/visiting students, the course will be automatically registered (The quota for exchange/visiting students is usually 25% of total enrollment in each class).

Students may refer to the course list from the corresponding semester of the previous year as it will remain similar. However, courses are subject to change every semester and we cannot guarantee its availability. Students are responsible to make a back-up plan for their course plan. KU cannot recommend or find a course for individual students in principle of fairness. It is student’s responsibility to make a backup plan (plan B) when they make their course plan.
